Boats will enter the race if they can navigate without limits, as provided for by the Italian legislation or any domestic legislation of the country where they come from. Alternatively, they shall hold

documents issued by the National Sailing Authority (conformity certificate, rating certificate or equivalent) that are considered as equivalent to the norms concerning pleasure navigation, and that fully satisfy the requirements of the 2020-2021 World Sailing Offshore Special Regulations for Category 3 races, in particular the one relating to 3.04 (Stability), with the obligation to carry on board an inflatable liferaft and the additional equipment required, as specified in the attachments to the application form. Boats built after the month of June 1996 will be at least approved for CE Class B and those built before the month of June 1996 will have to submit the rating certificate corresponding to class B.

The Organising Committee has the undisputable right to accept, to a limited extent, individual boats with an overall length shorter than the minimum one should individual classes (i.e. Mini 6.50) and/or owners qualified to race offshore request so, provided they comply with the specific requirements.

- 2.2 Owners and/or Charterers of a participating boat will have to produce a valid marine third-party liability insurance certificate (with a limit of at least up to € 3,000,000.00) for any damage that might be caused by the boat during the race, and shall ensure that crewmembers are aware of the importance of entering into an appropriate personal insurance agreement.
- 2.3 Crewmembers of the boats participating to “Roma per Due” shall be limited to two, and shall meet the requirements of RRS and World Sailing Regulation 19 (Eligibility Code). The skipper must be over 18 years of age, the co-skipper shall be at least 13 years of age.

If minors, participation is subject to the authorization signed by the parent exercising parental authority.
- 2.4 The skipper of each participating boat shall ensure that the crew is adequately knowledgeable and skilled to take part to an offshore race. It is strongly recommended that the skipper and at least half of the crewmembers shall have previously taken part to an offshore race of extended duration.
- 2.5 **Roma per Due crew and the skipper of crews participating in Roma per Tutti shall hold a valid certification they have attended a “Safety and Survival at sea” course acknowledged by World Sailing.**

The skipper must hold a no-limits sailing licence. Foreign skippers must hold an equivalent licence. If the national legislation does not provide for such licence, they should submit a declaration in this sense drawn by a national body.

### 3. CATEGORIES AND CLASSES

- 3.1 **Open Category (Roma per Due):** The participating boats will be divided into classes based on their overall length (LOA): Monohull will be separated from multihull.
- Class 0 longer than 60 ft (m.18.29)
  - Class I from more than 50 ft (m.15.24) to up to 60 ft (m.18.29)
  - Class II from more than 45 ft (m.13.72) to up to 50 ft (m.15.24)
  - Class III from more than 40 ft (m.12.19) to up to 45 ft (m.13.72)
  - Class IV from more than 36 ft (m.10.97) to up to 40 ft (m.12.19)
  - Class V to up to 36 ft (m.10.97)

For instance, a boat just 12.19 m long (LOA) will be admitted to Class IV.

Overall length does not include any appendages protruding from the hull, as bowsprits, outriggers, pulpits, booms, rudders over the stern including any wind or automatic ones.

- 3.2 For multihull yachts, overall length (LOA) is measured considering the whole of the hulls.
- 3.3 The Organising Committee reserves the incontrovertible right to admit boats to Classes other than the ones specified by a domestic and/or international regulation.
- 3.4 Any Class may be set up if there are at least six entries falling within such class. Failing this, boats are admitted to the upper Class.
- 3.5 Should entries for Class 0 be below the minimum threshold (even because of no entries from the lower classes), the boats will anyhow be allowed to participate to the race but they will compete just for the Overall ranking (or for special awards such as the corrected time category or the double-handed, mixed man-woman cup) and not for the class ranking. This shall apply to any class failing to comply with the pre-defined minimum threshold.

3.6 **IRC Category**

**Roma per Due - Roma per Tutti**

Participating boats shall have a current and valid IRC rating certificate.

3.7 **ORC Category**

**Roma Due – Roma per Tutti**

Participating boats shall have a current and valid ORC rating certificate.

**4. INSPECTIONS**

- 4.1 Boats may be inspected before the race starts. Accordingly, they will have to be ready for inspection at the assigned berth by no later than **9am on Thursday September 17, 2020**. It is mandatory that at least one authorised crewmember is present when the Organising Committee carries out the inspection. Should the boat be late for inspection, the Organising Committee might decide not to admit it to the race.
- 4.2 Boats may be inspected before and after the race to ascertain their full compliance with their rating certificate.
- 4.3 The Organising Committee may request any verification of the participating boats and related safety equipments should it deem it appropriate and useful.
- 4.4 Each participating boat will receive an electronic tracking and satellite communications system that will have to be kept on board. The Organising Committee may use the information received from the system for media communication purposes as well as for technical and safety ones. The skipper shall be responsible for the system until it is handed in to the Race Office at the end of the competition. Based on the system's data and taking into account the accuracy guaranteed by the supplier, each individual boat tracking and detection points will also allow to determine whether competitors have been compliant with the obligations associated to the sailing restricted areas. Such areas will be evident on the tracking application map and illustrated in the Sailing Instructions.
- 4.5 **Engine:** Each participating boat will have to be ready to allow for the 'sealing' of the engine by 9am on September 17, 2020. The pre-arrangement will consist in drilling 4mm holes in the gear shifting system so that a leaded wire can go through. This will serve as a security seal to

prevent forward gears utilization throughout the competition (before the race starts through to after the finish line is crossed as set by the Organising Committee instructions).
